

Hollywood

Quietdrive

You lied again
Maybe this time you'll feel better
We'll try again
We fight again
Baby, I could make you feel better
Believe me, believe me
Believe me, believe me
Would you say it to me?
Hollywood, how I love you
Would you say it to me?
If I could, I would kiss you
Believe me, believe me, believe me
I just called your name
And say I wanted be attached to it
And I just spell your name
And say I wanna get through to you
But this is how we live our lives
Little holes inside of lies
But I wanna get through
It's time to get through to you
Say it to me
Hollywood, how I love you
Would you say it to me?
If I could, I would kiss you
Believe me, believe me, believe me
You lied again
Maybe this time you'll feel better
We'll try again
We fight again
Baby, I could make you feel better
Believe me, believe me
Believe me, believe me
You lied again
Maybe this time you'll feel better
We'll try again
We fight again
Baby, I could make you feel better
(Believe me)
Would you say it to me?
Hollywood, how I love you
Would you say it to me?
If I could, I would kiss you
Believe me, believe me, believe me
