

# On My Own

Quietdrive

I've been so many places  
I've seen so many things  
But nothing compares to way you used to look at me

We both know this is over  
We know that lines are blurred  
Sometimes I think I could fix it if I just found the words

Put down your guards so I can try to explain where I went wrong  
Trust that I stay right by your side  
If you can't open up then I guess I never will

If you don't want me to stay another night another day  
I can find my way back home I can do this on my own  
If you don't want me to stay I can find another way  
I can find my way back home  
I can make it on my own

I know you think it's over  
One foot is out the door  
I see it in your eyes that you don't love me anymore  
I touch you on the shoulder  
This moment never ends  
I know you're thinking what I'm thinking but you won't let me in

Hey, don't feel bad because you've changed  
We became those things we hate  
Just don't pull away because one bad day makes you hesitate

If you don't want me to stay another night another day  
I can find my way back home I can do this on my own  
If you don't want me to stay I can find another way  
I can find my way back home  
I can make it on my own  
My own  
My own  
I can make it on my own  
I can make it on my own  
I can make it on my own  
I can make it on my own  
I can make it on my own

Will you think of me in the dead of the night  
Will you ask yourself where he sleeping tonight  
In your darkest hour will you make it out alive  
On your own  
On your own  
On your own

If you don't want me to stay another night another day  
I can find my way back home I can do this on my own  
If you don't want me to stay I can find another way  
I can find my way back home  
I can make it on my own  
My own  
My own  
I can make it on my own

My own

My own

I'm on on my own
