

## Broken Man

Quill

I've been cruising every highway but I don't know where I  
've been

All my life I've been rightful, if killing ain't no sin  
I've been trying to remember what I did along the way  
Who I am, where I came from, well I guess it's all the  
same

I know, tomorrow I will beg for today  
I know, I've never been afraid  
Yeah I know, I have ruined my plan  
Now I'm standing here as a broken man

I was given just a little but I ended with a lot  
In the poison I was drowning I deserved just what I got

I know, tomorrow I will beg for today  
I know, I've never been afraid  
Yeah I know, I have ruined my plan  
Now I'm standing here as a broken man
