

Into the Volcano (I Fly)

Quill

Someone better hold back the rain
I'm beggin, 'cause I worship the sun
Someone keep the dark clouds away
Afraid it's gonna drown me again

I'm riding down the waterfall
To the seas of sorrow
Into the volcano
I wish I could fly

What I had I'd put into your mouth
Empty, I'm surveying myself
Open doors but none leads me out
Into the volcano I wish I could fly

Don't you think I've tried to touch the ground
But why do I glide, why can't I go down
In the morning, shelter me, please
When the winds descend
And I am falling free
