Yeah, release me from this halo It's a burden, bringing me down Yeah, release me from this halo I'm not worthy walking this ground

It matters to me, does it matter to you? how I feel...what do I feel I don't know when I see, yeah, what no one believes I am standing in a merciless room

All I'm given - desolation
I can't stand this horrible sound
All I'm given - desolation
I feel safe when no one's around

It matters to me, does it matter to you? how I feel...what do I feel I don't know when I see, yeah, what no one believes I am standing in a merciless room
