

# Give Me the Night

Quincy Jones

We never thought,  
You now the spirit of the party starts to come alive,  
Until the day is starting,  
You can throw on your boots and hit the city lights

Cause all this music in the air  
You like to love it everywhere,  
So give me the night!  
Just give me, give me tonight!  
So give me the night!  
Just give me, give me tonight!  
So give me the night!  
Just give me, give me tonight!

We need the evening action,  
A glass of wine, a little late romance,  
It changes the action,  
See the people of the world, coming out today.

Cause all this music in the air  
You like to love it everywhere,  
So give me the night!  
Just give me, give me tonight!  
Just give me the night!  
Just give me, give me tonight!  
So give me the night!  
Just give me, give me tonight!

So come on out tonight,  
And it will be your  
Cause we're on the run to Paradise.  
And if we'll be alone,  
If we could be lovers,  
Cause I see that star that I'm looking at.

Don't you know we can fly?  
Baby, tonight  
Just give me, just give me tonight!  
Just give me, give me tonight!  
Just give me the night!  
Just give me, give me tonight!  
So give me the night!  
Just give me, give me tonight!

So come on out tonight,  
And it will be your  
Cause we're on the run to Paradise.  
And if we'll be alone,  
If we could be lovers,  
Cause I see that star that I'm looking at.  
Don't you know we can fly?  
And if we stay together,  
We'll feel the rhythm of the evening,  
Taking us that high,  
Never mind the weather,  
Cause we'll be dancing on the streets  
Till the morning light.

Cause all this music in the air  
You like to love it everywhere,  
So give me the night!  
Just give me, give me tonight!  
So give me the night!  
Just give me, give me tonight!  
So give me the night!  
Just give me, give me tonight!
