

Slow Jams

Quincy Jones

Baby dim the lights
So while I pour the wine
Set the music up nice and slow
Wanna move with you inside a groove
Like no one's ever known
Let your body unwind in the warmth of mine
Tell me what you like
'cause tonite I wanna turn you up to paradise

Sweet thang hold me close
Share my desire
And we can make the magic flow
Once the music is right

Give me slow jams and hot romance
Rock me with that tender dance
Baby get closer so we can feel the power of love
Share my sweet groove the whole night through
Let me lay my beat on you
We'll keep the music playing movin' in time

Let me get a taste of some babyface
And you know it'll be alright
'cause the road that ends at boyz ii men
Is the road I wanna ride
We can go to the moon on a stevie tune
Fly ribbons in the sky
Give me everything r. kelly sings
Let us bump and grind

Baby feel the beat
Here in my heart
Move with me in ecstasy
Let the melody start

Give me slow jams and hot romance
Rock me in that tender dance
I wanna feel the passion so give me all you got
Share my sweet groove the whole night through
Make tonight a dream come true
Let's keep this groove thing going and never never
never let it stop

It's something that feels so right
Take this side of your rhythm

Baby tonight's your night
When I feel your beat inside my soul
It's a do me groove I know I can't control

Sweet thang hold me close
Share my desire
We can make the magic flow
Once the music is rockin'

Give me slow jams and hot romance
Rock me with that tender dance

I wanna feel the passion so give me all you got
Share my sweet groove the whole night through
Let me lay my beat on you
Let's keep this good thing going
Movin' in time with something good
