

# The Midnight Sun Will Never Set

Quincy Jones

The midnight sun will never set  
It shines forever in my heart  
For it was underneath that amber glow  
You whispered low  
"We'll never part"  
The midnight sun will never set  
So now could our romance be through?  
For in the ever-shining daylight of our summer love  
The midnight sun was shining too  
No more is night a wild delight  
With all the world on fire  
And yet I can't escape  
The lips I still desire  
I see two silent silhouettes  
Against a flaming sky and sea  
And then I know, though I'm a fool to care  
Again, somewhere  
The midnight sun will shine for me
