All the Best

So over me So pie in my face So talk to me And tell me where to place this In my Quasimodo heart That's when I slipped and fell I rang the church bell Till my ears bled red blood cells

I think I'll sing it in rhyme I'll give it one more time I'll show the kids how to do it Fine, fine, fine

I hold the mirror up You tell me what is what You tell me which part Of my story, baby, stuck, stuck, stuck I'm in a part of your dreams That you don't even understand It's just like me to overstay My welcome, man

Let's sing it in rhyme Let's give it one more time Let's show the kids how to do it Fine, fine, fine, fine

I just had to get that off my chest Now it's time to get on with the rest All the best All the best All the best All the best, best, best

It's just like me to overstay My welcome, bless

Let's sing it in rhyme Let's give it one more time Let's show the kids how to do it Fine, fine, fine, fine

Let's sing it in rhyme Let's give it one more time Let's show the kids how to do it Fine, fine, fine, fine
