

All the Right Friends

R.E.M.

I know you say
Maybe some day
I need never be alone
I know I say
It's the right way
But you'll never be the one

I've been walking alone now
For a long, long time
I don't wanna hang out now
With the friends who just aren't mine

Party to party
You've been looking
But your search will never end
You've been hanging
With the wrong crowd
You've got all the right friends

I've been walking alone now
For a long, long time
I don't wanna hang out now
With the friends that just aren't mine

I don't wanna be with you anymore
I just don't want you anymore
I don't wanna be with you anymore
I just don't want you anymore

I don't wanna be with you anymore
I just don't want you anymore
I don't wanna be with you anymore
I just don't want you anymore
