

On the Fly

R.E.M.

You said that loving me was falling off a log
You always had a way with words
I'm in a barrel over Niagara Falls
I wonder if I am defaced
If I asked of you just one wish
Would you turn on me and take the fifth
Your off again on some epic celebration
Shooting barrels full of fish
You found another hole to waltz into
You found another car to crash
I figured it out that if you served me up
Another of this shall pass
It's easy laugh off easy to brush aside
We're living our lives we're here on the fly
It's easy laugh off easy to brush aside
We're living our lives we're here on the fly
And I just happened by

I stood there naked by the trains again
Frozen stock still in the yard
A Heron waiting for the fish to jump
I never let down my guard
I've been exclusive when it comes to you
I don't receive at all
I wished I felt the same when you called me late
I almost wished you didn't call
God knows what I'm looking for
And God knows what I am
Cause Even Jesus had his reservations
I won't be doubting you again
I won't be doubting you again
It's easy laugh off easy to brush aside
We're living our lives we're here on the fly
It's easy laugh off easy to brush aside
We're living our lives we're here on the fly
And I just happened by
I'm living my life, I'm here on the fly
And I just happened by
