## Lady Sunday

La da da da da, la la Oh yeah, yeah

Where there's no sun, there is that girl She is the one that spins my world When I am down, she makes it better When there are clouds, she change the weather My wishing well, oh my peace and my glory As a fairytale, then she is my story When I feel drained, her love is like a fountain And when I'm weak, she can move mountains

I never felt a love, no, this way I never felt a kiss, no, this way I never felt joy this way 'til my lady Sunday came

Oh, I am her ground, and she is my sky If life is a road then she is my ride When I'm in pain, she's my good feeling When I am sick, she brings me healing Whenever I call, she is right there And when I fall, she says a prayer When it comes to making love to me she knows how to do it Introducing Mrs Music

I never felt a love, no, this way I never felt a kiss, no, this way I never felt joy this way 'til my lady Sunday came

La da da da, Miss Got-Me, Miss Righteous, Miss Hallelujah La da da da, take my hand and be my Mrs Future La da da da, 'cause your loving makes the groove much better As long as we got music, as long we got music As long as we got music, we'll dance forever

I never felt a love, no, this way I never felt a kiss, no, this way I never felt joy this way 'til my lady Sunday came. (2x)

I never felt a love, no, this way (I never felt a love this way) I never felt a kiss, no, this way (No, no, said I never felt a kiss, no, no) I never felt joy this way (No, no, no, I never, felt joy this way) 'til my lady Sunday came ('til my lady Sunday came to me)

I'm so glad, glad That I would shout R. Kelly
