

# All Night

R5

We're staying all night  
Got blue jean baby  
playing in my mind  
She gets me so high  
Giving me faith I gotta testify  
Uh

And the way that she walks  
I can't hide it  
If I said I don't like it I'm lying  
Hold tight (yeah)  
A little bit of love  
will change your life

She said I'm outta my head  
I'm going outta my mind  
And when I'm out on the edge  
will you save me  
Save me

Can we live for the moment  
Can you live for tonight  
Can we forget what was  
broken an say say say we'll be

All right  
Cause even if we change  
we'll always be the same  
All night  
I promise if you stay  
we'll never fade away  
All night

And now it's midnight  
and I can feel  
your electricity  
Give me that skin tight  
Good girls ain't  
never making history  
(Nope)  
And we'll dance in the streets  
till the morning

Never sleep when the city is calling  
Hold tight  
A little bit of love  
will change your life  
(change your life)

She said I'm outta my head  
I'm going outta my mind  
And when I'm out on the edge  
will you save me  
Save me

Can we live for the moment  
Can you live for tonight

Can we forget what was  
broken an say say say we'll be

All right  
Cause even if we change  
we'll always be the same  
All night  
I promise if you stay  
we'll never fade away  
All night

We'll be all right  
We'll be all right  
We'll be all right  
We'll be all right  
And we got nothing but time  
(We'll be all right)  
To make the most of this life  
(We'll be all right)  
Take on the wrongs and the rights  
(We'll be all right)  
Forget them all and just say say say  
oh, won't you say it now  
We'll be all right  
All right

Cause even if we change  
we'll always be the same  
All night  
I promise if you stay  
we'll never fade away  
All night  
Cause even if we change  
we'll always be the same  
All night

I promise if you stay  
we'll never fade away  
All night  
All night
