

Did You Have Your Fun?

R5

Just being honest
You can't tie me down
Life is a short trip
And I've been around, oh
Sydney out in Tokyo
Don't tell her man
Swear I didn't know it but
She didn't care

Said: put your hands where I can see
I'll make you write a song for me

She's so bad, she's good for me
This girls know ways you won't believe, oh
One night is all she needs
Love me, leave me, left me numb
Did you have your fun?

I like the music
And asked her to dance
Said: no, we're leaving
Don't tell my friends
Underneath the street lights
There was smoke in the air
She said: never like this, while she's pulling my hair

Said put your hands where I won't see
Baby I won't say a thing
Stop leaving stains on cigarettes and come and put your lips on me

She's so bad she's good for me
This girl knows ways you won't believe, oh
One night is all she needs
Love me, leave me, left me numb
Did you have your fun?

What you running from?
Draw your guns
Draw your guns
Tell me what it is you're running from?
Draw your guns
Draw your guns
Draw your guns
Baby, did you have your fun?

She's so bad she's good for me
This girl knows ways you won't believe, oh
One night is all she needs, hey
Love me, leave me, left me numb
Love me, leave me, left me numb

She's so bad she's good for me
This girls knows ways you won't believe, oh
One night is all she needs
Love me, leave me, left me numb
Did you have your fun?
