

Heart Made Up on You

R5

Got my heart made up on you
Ooh, ooh, ooh

You said what you said
When words are knives
It's hard not to forget
But something in my head wouldn't reset
Can't give up on us yet
No, wo-oh
Your love was so real
It pulled me in just like a magnetic field
I'd let you go but something's taking the wheel
Yeah it's taking the wheel
Oh, wo-oh

My mind says, no you're no good for me
You're no good but my heart's made up on you
My body can't take what you give to me
What you give, got my heart made up on you
Wo-ooh, Wo-ooh
Got my heart made up on you

I should be making a break
Up all night thinking I'm planning my escape
But this insomnia ain't goin away
And now I'm back at your place
Oh, no

My mind says, no you're no good for me
You're no good but my heart's made up on you
My body can't take what you give to me
What you give, got my heart made up on you
Wo-ooh, Wo-ooh
Got my heart made up on you

Look what you did, what you did
What you're doing to me
You got me searching for the words, like a silent movie
I can't breathe, I can't see, it's so out of control
But baby, honestly, my hands are up
I'm letting go, go, go, go, go, go, go, go, go, go

Got my heart made up on you

My mind says, no you're no good for me
You're no good but my heart's made up on you
My body can't take what you give to me
What you give, got my heart made up on you
Wo-ooh, Wo-ooh
Got my heart made up on you

My mind says no
Got my heart made up on you
Up on you, up on you
