

# I Need Your Light

Ra Ra Riot

Had a fright  
Did you make it back to your house  
Walking alone at night  
Always get nervous

Passed your street  
Your room was dark  
I didn't ring your door  
I won't wake you up

For you  
You know  
I walk  
The line  
Cause I  
Can't see nothing  
Without your light

Left your soul  
And I still got your toothbrush  
You always kept your hair  
Dirty on purpose

For you  
You know  
I walk  
The line  
Cause I  
Can't see nothing  
Without your light

I need your light  
I need your light  
I need your light  
I need your light  
I need your light  
I need your light  
I need your light

Cause I get worried sometimes  
If I left you behind  
You get eaten alive  
Little sea of mine  
I get worried sometimes  
When in the [?]  
If I left you behind  
You get [?]

For you  
You know  
I walk  
The line  
Cause I  
Can't see nothing  
Without your light

I need your light

I need your light  
I need your light  
I need your light  
I need your light  
I need your light  
I need your light

I need your light  
I need your light  
I need your light  
I need your light  
I need your light  
I need your light  
I need your light

I need your light  
I need your light  
I need your light  
I need your light  
I need your light  
I need your light  
I need your light

For you  
You know  
I walk  
The line  
Cause I  
Can't see nothing  
Without your light
