

You and I Know

Ra Ra Riot

Clear my eyes
From this
Reverie so that I don't mind
Oh oh, oh, no, no, no
Said I... well I...

Don't, Don't want to know
Even if you say that you know that you
Want to find my heart
Tell me that you never wanted to

Promise to hide up in my eyes
I would unburden you
From this
Unaware, you
Will I need to?

Don't, don't even know
Even when you say you know that you
Want to find my heart
Tell me that you never wanted to
Don't, don't even know
Even if you say you know that you
Want to find my heart
Tell me that you never wanted to

You and I, you and I know
You and I, you and I know
You and I, you and I know
You and I, you and I know
You and I, you and I know
You and I, you and I know
You and I, you and I know

Don't, want to know
Even when you say you that you
Want to find my heart
Tell me that you never wanted to
Don't, Don't even know
Even if you say you know that you
Want to find my heart
Tell me that you never wanted to
