

# Don't Turn Away

Ra

Under the sun I stand  
Over the wings of Fallen Angels  
I can't believe the things you show me  
In my dreams I have you next to me

Forever gone is love  
Out of control I fall in trenches  
And if you leave me empty  
How will I design the world I need

In your eyes you see it done  
Colors drained away like water  
Distance all but disappears  
And nothing can be done

Don't, Don't turn away  
Don't let it take you over  
You cannot give in  
Don't let it take you over now

And in your eyes I catch  
A tiny glimpse of heaven calling  
You try to stay in touch but can you  
End what has no real beginning

In your eyes you see it done  
Colors drained away like water  
Distance all but disappears  
And nothing can be done

Don't, Don't turn away  
Don't let it take you over  
You cannot give in  
Don't let it take you over now

And I walk away  
I leave you right where you stand  
I'll never regret all that I said to you  
But you never turned away

You never turned away  
You never turned away  
You never turned away

Don't, Don't turn away  
Don't let it take you over  
You cannot give in  
Don't let it take you over now

Don't, Don't turn away  
Don't let it take you over  
You cannot give in  
Don't let it take you over now

And I walk away  
I leave you right where you stand  
I'll never regret all that I said to you

But you never turned away

You never turned away

You never turned away

You never turned away

Don't, Don't turn away

Don't let it take you over

You cannot give in

Don't let it take you over now.
