

## Push

Ra

Daddy, where did all the people go?  
Mommy, you won't tell me what you know  
Evil smiles while they lie to you  
Careless secrets glorified untrue

I can't push it all away  
Every minute every day  
We have to find the time  
to make these people do the things the say

Sorry, I look past the truth alone  
Maybe, with my fists I throw a stone  
Shallow, graves fill up without regret  
Broken, promises we all forget

I can't push it all away  
Every minute every day  
We have to find the time  
to make these people do the things the say

I can't push it all away  
Every minute every day  
We have to find the time  
to make these people do the things the say

It falls out of my brain  
The visions of my brothers dying in the sand  
It always seems the same  
The basest instinct convalesces  
In what is the worst of man

Listen  
We can make it right  
We can make them see us in the light

We can make it right  
We can make them see us in the light

We can make it right  
We can make them see us in the light

We can make it right  
We can make them see us in the light

We can make it right  
We can make them see us in the light

We can make it right  
We can make them see us in the light

We can make it right  
We can make them see us in the light

We can make it right  
We can make them see us in the light

We can make it right

We can make them see us in the light

We can make it right  
We can make them see us in the light

We can make it right  
We can make them see us in the light

We can make it right  
We can make them see us in the light

We can make it right  
We can make them see us in the light

We can make it right  
We can make them see us in the light  
(I can't push it all away)

We can make it right  
We can make them see us in the light
