

## Take Me Away

Ra

Inside a second you can hear a flower growing in the wind  
But does it reach you when there's darkness all around  
How many days will this go on  
How many thoughts can I obsess  
Why do we come apart  
And watch it all go down

Take me away I can't deny it  
And all that I want is to touch the sky  
Show me the way a simple mind  
And no one can say it can't be done

I see it shining on the sun  
A road that leads beyond this place  
A way to push aside the walls that block our path  
If time can truly be a lie  
There's nothing left but you and I  
Denying everything and shattering the glass

Take me away I can't deny it  
And all that I want is to touch the sky  
Show me the way a simple mind  
And no one can say it can't be done

Out of mind out of time  
All alone stuck at home  
Can't decide Full of pride  
I want it all  
Left to be only me  
Far away everyday  
Sanity Vanity  
I want it all

Symbolize separation  
Let me be set me free

Take me away I can't deny it  
And all that I want is to touch the sky  
Show me the way a simple mind  
And no one can say it can't be done

Take me away (x4)
