

A war against time, destined to lose
I'll just sit and watch TV
A magical force, hypnotic drool
I'll take in all that I can see

I'm seeing chains, now hold me down
The recline of modern man
Neatly displayed and bundled lies
An hour glass and I'm the sand

Generator, decimator
Universal, devastator

A cyber involved diversity
So straighten up and go on line
Sexual drive intensity
The darkest pit that you can find

I'm holding this key to be erased
Put your life into a disk
Strainful powers, social disgrace
Wages war with little risk

Generator, decimator
Universal, devastator
Substitution, evolution
Electronic, absolution

Oh, my head is always lost
And always changing mind
What's wrong just feels so right
I think I'm going blind

Generator, decimator
Universal, devastator
Substitution, evolution
Electronic, absolution
