What I'm About

As I lie awake at night And think of how I used to dream, I remember how it felt When I used to feel like me. The world could never understand. Perfection in a broken man.

You know it is a lot, What makes me tick, What I'm about. You know it is a lot, My beating heart, My world of doubt. What I'm about.

Did you ever think you saw From the corner of your eye, Something's there but then it's gone. Like a shadow passing by. My heart beats with a killer's rage. The vision of a future age.

You know it is a lot, What makes me tick, What I'm about. You know it is a lot, My perfect life, My world of doubt.

You know me. You made me. Destroy me. Create me. Forsake me. Degrade me. Won't somebody save me?

You know it is a lot, What makes me tick, What I'm about. You know it is a lot, My beating heart, My world of doubt. What I'm about. What I'm about.
