

## Ghost Dance

Racer X

Bi polar neutronic energy stream  
Lit me to space pass the end of my seams

Lost to a void where all spirits dance free  
Cast myself to a place of no cry's, laughs or screams

At a left from a sun took a chance that I might find  
you  
In a space in a sea swirling down in an endless stream  
Emptiness is one not a star or a sun I'll find you  
I'll find you.

Lost in a ghost dance  
A ghost dance of dreams

Light years roll by day after day  
Star systems pass quickly fading away

Soul spirits dance to holding their kin  
Plasmatic morphine the darkness were in

Reached the edge touched the face of God asked where I  
could find you  
All the good here are dead swirling round in a heavens  
sea  
Screamed to my lord tell where, where can I find you  
I'll find you

Locked in a ghost dance  
A ghost dance of dreams

Dances of the dead in my wake as they spray surrounds  
you  
Remnants of worlds and of loves gone sail on by  
In my memory it stays caught a face in the haze I found  
you  
I found you  
I found you  
I found you

Embraced in a ghost dance for eternity
