

# Lucifer's Hammer

Racer X

It breaks the light, it owns the night, it steals the  
day  
I'm filled with fright I roll it on can't get away

Oh no, oh no scaring the shit out of me  
Can't you see  
Chasing me

Lucifer's hammer comes rolling down the track  
Scorching the road and burning your back  
When Lucifer's hammer is pulling up behind  
Pull it back, kick it down, move it over, pull a side

Crushing the ground raping the earth tearing up speed  
Thrashing down fuel fuming the air on me it feeds

Oh no, oh no thirsts for my need for pure speed  
Rolling free  
Eating me

Lucifer's hammer comes rolling down the track  
Scorching the road and burning your back  
Lucifer's hammer comes crawling up your spine  
Running you down 'n grinding in your mind  
Lucifer's hammer comes rolling down the track  
Scorching your soul and burning your back  
When Lucifer's hammer is pulling up behind  
Pull it back, kick it down, move it over, pull a side

Here it comes!

Lucifer's hammer comes rolling down the track  
Scorching the road and burning your back  
Lucifer's hammer comes crawling up your spine  
Running you down 'n grinding in your mind  
Lucifer's hammer comes rolling down the track  
Scorching your soul and burning your back  
When Lucifer's hammer is pulling up behind  
Pull it back, kick it down, move it over, pull a side
