

# Sacrifice

Racer X

From the first day you stole my heart  
You took it for granted, you broke it apart  
Oh oh oh oh

You never wanted to be  
Mine and now I see  
It's touch and go  
I know you know that I need you so

You've taken the stars, you robbed the moon  
My glass heart, it shatters shatters for you  
Ou ou ou ou

Cut on the jagged edge  
I'm bleeding for you  
My world is red  
I'm fading fast  
Don't think I can last  
I feel myself goin'

Sacrifice  
I'd die for you  
You've sacrificed  
Our love is true  
I'll never see  
Why you want me to be your sacrifice

I wished a thousand wishing stars  
To earth they come crashing since we broke apart  
Oh oh oh oh

Up in flames go my dreams  
Burnt into ash or so it seems  
My world is black there's no going back  
There's no starting over

Sacrifice  
I'd die for you  
You've sacrificed  
How we are through  
You've sacrificed  
Our love could do  
Why can't you see  
What you're doin' to me  
I'll never be  
What you want me to be  
Your sacrifice
