Your light shined out bright Shined out for all to see But it really only shines for only me

And when the day runs out of light We feel each other Our love is burning bright

Sunlit nights
Your love is burning away
Brighter everyday
Sunlit nights
Feel my love goin' up in flames

Warms with a touch
You know just what to do
Sparks me with a fever
That burns me all night through

Bring on the heat Turn out the light We will be melting Melting down tonight

Sunlit nights
Your love is burning away
Brighter everyday
Sunlit nights
Feel my love goin' up in flames

All through the day I try and keep it cool But all my daydreamin' Brings me back to you

Sunlit nights
Your love is burning away
Brighter everyday
Sunlit nights
Feel my love goin' up in flames

Sunlit nights
Your love is burning away
Brighter everyday
Sunlit nights
Feel my love goin' up in flames
