

# All We Need

Rachael Lampa

Where the road takes me  
where the road takes me I'll never walk alone  
Where the road takes me, where the road takes me  
I'll always make it home  
Journey is the destination  
just let me see through Your eyes  
Even though I'm searching,  
even though I'm searching  
You're my guiding light

Let the blind and broken see  
Let the peace inside me be  
Love is all we, love is all we, love is all we need  
Let the light inside You shine  
Come on put Your hand in mine  
Love is all we, love is all we, love is all we need

I can feel the thunder voices of the angels echoing inside of me  
Singing through the sadness,  
breaking through the madness reaching out to set me free  
I don't know the answers hidden in the questions but I know that I believe  
Follow in Your footsteps, find me in the darkness falling to my knees

Let the blind and broken see  
Let the peace inside me be  
Love is all we, love is all we, love is all we need  
Let the light inside You shine  
Come on put Your hand in mine  
Love is all we, love is all we, love is all we need

All we need, all we need, love is all we need

I don't know the answers hidden in the questions but I know that I believe  
Follow in Your footsteps, find me in the darkness falling to my knees

Let the blind and broken see  
Let the peace inside me be  
Love is all we, love is all we, love is all we need  
Let the light inside You shine  
Come on put Your hand in mine  
Love is all we, love is all we, love is all we need  
Love is all we, love is all we, love is all we need
