

# The Good Life

Rachael Lampa

Come make some time today  
Jump aboard here on this train  
'Cause it leaves just in time for everyone  
Who believes one day we will see the sun

Let's take this ride today  
Plenty room, plenty space  
You'll find you'll be in good company  
All the time you'll be free to fly

From your sorrow straight into the light  
And your tomorrow ever shining bright  
All you high and below trying to survive  
Just come on down

I know you feel it  
But I wanna hear it from you now  
Say what and I wanna hear you sing it loud  
Say what and I gotta hear you sing it out

It's time for the good life  
It's time for the good life  
And I gotta hear you sing it loud  
It's time for the good life  
It's time for the good life

Your drama gone  
You're light and free, I know  
I wanna be there when you make your discovery  
Yeah, here comes your victory

Over sorrow straight into the light  
Your tomorrow ever shining bright  
Don't you ever let go, 'cause ya finally got it right  
Let's sing it down

I know you feel it  
But I wanna hear it from you now  
Say what and I wanna hear you sing it loud  
Say what I gotta hear you sing it out

It's time for the good life  
It's time for the good life  
I gotta hear you sing it out

It's time for the good life  
It's time for the good life

I wanna be there when you take the ride  
There's nothing like it  
I wanna be there when you finally take that first flight  
I wanna be there when you finally, finally fit the shape of your life

Right time for the good life  
Take time for the good life  
It's time for the good life  
Make time for the good life

...
