

# Nobody

Rachael Yamagata

Call the angels near  
They don't come here  
But I know they miss me just the same

Stay until the dawn  
You're the chosen one  
You can whisper in my ear your tales of pain

And when you go  
I'll be on my knees on my knees  
Yeah when you go  
I'll be on my knees

Cuz nobody wants you the way I want you  
Nobody wants you the way I want you  
Nobody wants you the way I want you  
And when you go... I don't know what I'll do  
I don't know what I'll do  
I don't know what I'll do  
I don't know what I'll do

Sink into my soul  
Help me lose control  
Let me be let me be with you  
Wipe the canvas clean  
Paint the brand new scene  
I see I see it all with you  
And when you go  
I'll be on my knees... on my knees  
Yeah when you go... I'll be on my knees

Cuz nobody wants you the way I want you  
Nobody wants you the way I want you  
Nobody wants you the way I want you  
Nobody wants you...  
Nobody loves you the way I loved you  
Nobody knew you the way I know you  
No one will give you all that I gave you  
No one will heal you the way I saved you I saved you  
And now that you're gone  
Oh I don't know what I'll do  
I don't know what I'll do...
