

Over

Rachael Yamagata

You went one way I have gone the other
Water shapes the stone and air is free
We knew we weren't quite right for each other
Best to keep our distance peacefully

This is over over over
This is who we have become
This is over over over
This is done
The dreams we had when we were young

Lately I've stopped listening to voices
Urging me to open up the door
Thankfully I don't regret my choices
History has brought me back before

But this is over over over
This is who we have become
This is over over over
This is done
The dreams we had when we were young

It ain't easy but it's right
We hold so very tight
We hold with our lives

Let it go - like chances we all take
We all know - no such thing as no mistake
Let it go - like chances we all take
Take the broken pieces back today
Let it go - the chances we all take
We all know
Today begins anew
You went one way I have gone the other...
