

Rainsong

Rachael Yamagata

For worse or for better
I'd like to see you again
Now or never
Screaming in my head
Before it's settled in stone
Before I leave you alone
See me as you did long ago

Take it for shame back to the start
Ships have been lost for less than this and broken apart
Ice on my wings
A fatal disease
Let's play with them all
One final walk in the park
For your infamous heart

We can't stay kids forever
Who could bare that much pain
I've done my time with bad weather
You've done the same
We can't keep blaming each other
Or try to rescue this fight
Baby don't try again tonight

Take it for shame back to the start
Ships have been lost for less than this and broken apart
Ice on my wings
A fatal disease
Let's play with them all
One final walk in the park
For your infamous heart
Your heart your heart your heart
Sweetheart I miss you
Sweetheart I miss you
