

## Stick Around

Rachael Yamagata

Baby, you've caught my eye, I think I might need you to stay awhile

For I haven't seen a smile  
Quite as lovely as yours for awhile  
Stick around, I'll be good to you

Baby, I think you know  
When I get my arms around you, boy, I won't let go  
When you find a spark to awaken your precious heart  
You stick around and you'll see it through

I've been in trouble before with my pressured ember  
I'm willing to take that chance again  
And if we get caught in some crazy wind  
We can just get swept away, what do you say?

Baby, make up your mind, 'cause you know I don't wanna waste time  
We don't have a lot to lose, boy, decide to choose  
Stick around, I'll be good to you  
Yeah, stick around, I'll be good to you
