

Angels in Chelsea

Rachel Platten

Last not a saw suit, give a buck to a bone
20 feet down the street, some one you them
Some girl maybe 18 probably drunk
Just the wheel of the bus

And maybe things finally better, better
Maybe everyone finally fed up enough
Maybe all the clouds led up, led up

Round the sky, I see angels in chelsea
Wide stick live, I see angels in chelsea
Was so pass by though chain brick of concrete
And everywhere I look tonight I see angels around me
And everywhere I look tonight I see angels in chelsea

Phase three here I see in blues
Bought peace in the world and money for food
And little kid says, I'm gonna be like you a superstar
And I ma make a different stroll
And I ma make a different stroll

And maybe things finally better, better
Maybe everyone finally fed up enough
Maybe all the clouds led up, led up

Round the sky, I see angels in chelsea
Wide stick live, I see angels in chelsea
Was so pass by though chain brick of concrete
And everywhere I look tonight I see angels around me
And everywhere I look tonight I see angels in chelsea

Somewhere in beautiful dress, head down and hands
And make up a mess
Young one 2 kids, all the shoe says
I've been there too, and you gonna get through
Yeah, I've been there too and you gonna get through

Round the sky, I see angels in chelsea
Wide stick live, I see angels in chelsea
Was so pass by though chain brick of concrete
And everywhere I look tonight I see angels around me
And everywhere I look tonight I see angels in chelsea
