

# Can You Hear Me When I Talk To You

Rachel Proctor

Time passes by so quickly  
But I guess I thought you'd be here forever  
I never even got a chance to say goodbye  
There's so many things to tell you  
Left unsaid until now  
(chorus)

Can you hear me when I talk to you  
Do the words I say ever make it through  
Can you hear me when I talk to you  
'cause I'd give anything if I just knew

Every night I have the same dream  
The one where you get to hold me  
We laugh and talk until the morning  
And then you would vanish (yeah)  
It always leaves me feelin helpless  
When I wake up and you're not there  
(chorus)

Can you hear me when I talk to you  
Do you know how much I'd love to be with you  
Can you hear me when I talk to you  
'cause I'd give anything if I just knew

Living in this world without you  
I'm constantly searching through my memories  
Hoping that I find some treasures that I passed over  
And all that I took for granted mean so much now  
And I wont let it go  
(chorus)

Can you hear me when I talk to you  
'cause I never said some things that I meant to  
Can you hear me when I talk to you  
'cause I'd give anything if I just knew

You know I never said some things I meant to  
And I'd give anything if I just knew  
I miss you daddy
