

There's No Way Around It

Rachel Proctor

Hey what's the story with that look in your eye
The one that says we're more than friends tonight
I've never seen it before
Now it's hard to ignore

All of a sudden I've got nothin' to say
But I can't wipe this silly smile off my face
I never would've guessed
I would fall for you like this

All this time we've been tryin' to fight it
Now it's time to give in

There's no way around it
No denyin' we can't hide it anymore
We weren't lookin' for love
But we sure found it
Now there's no way around it

How many kisses did we miss in the past
Guess I never thought of you like that
Now I that I do
I can't get enough of you

They say that friends make the best lovers
I guess we're about to find out

There's no way around it
No denyin' we can't hide it anymore
We weren't lookin' for love
But we sure found it
Now there's no way around it

This "cat and mouse" is about to drive me crazy
Let's get it over with, kiss me baby

There's no way around it
No denyin' we can't hide it anymore
We weren't lookin' for love
But we sure found it
Now there's no way around it

There's no way around it
