## **Fools**

## **Rachel Stevens**

It'll be O.K. with the next one I always end on a leash up having no fun Yeah, I'm always stuck Feel like getting up now Make it understood, crazy And it means getting down

I'm so tired and bored of the Mr. Nice Guy Treats me well, but "stiff" if the word on my mind

So send me in the fools Throw away the heros I need some excitement here tonight Send me in the fools I'm startin' up the party I make wakin' up wanna feel the vibe

What I need is something That's not against the law It just fit in space and Baby I'm bored, I'm bored of feelin' That safe, easy touch Need a man to get my engine started up

Don't change - too lame, that don't make my kind of man Find a wild side somewhere and maybe we can

So send me in the fools Throw away the heros I need some excitement here tonight Send me in the fools I'm startin' up the party I make wakin' up wanna feel the vibe

Get me off this one-way road I'm goin' down All I feel like now is Heaven's so far

So send me in the fools Throw away the heros I need some excitement here tonight Send me in the fools I'm startin' up the party I make wakin' up wanna feel the vibe

So send me in the fools Throw away the heros I need some excitement here tonight Send me in the fools I'm startin' up the party I make wakin' up wanna feel the vibe

So send me in the fools Throw away the heros I need some excitement here tonight Send me in the fools I'm startin' up the party I make wakin' up wanna feel the vibe
