

# Nothing Good About This Goodbye

Rachel Stevens

I guess I should say what is on the tip of my tongue,  
'Cause I've seen how it aches when you've missed your chance,  
The time's gone,

Snap decisions cause you so much pain  
Then you come 'round again and there's nothing left at all  
Perfect vision, now I'm running blind  
Too scared of what I'll find when you call

Only now I've let go  
Honey, I just don't know  
Sit right here and watch the sky above for a sign  
Tell me will you miss me, when I'm in your history  
Baby, there ain't nothing good about this goodbye

If you are the one  
This regret will last forever  
'Cause nobody knows if we should stay together

Snap decisions cause you so much pain,  
Then you come round again and there's nothing left at all,  
Selfish, but I think its for the best  
I'll miss you for the rest of my life

Only now I've let go  
Honey, I just don't know  
Sit right here and watch the sky above for a sign  
Tell me will you miss me, when I'm in your history  
Baby, there ain't nothing good about this goodbye

Only now I've let go  
Honey, I just don't know  
Sit right here and watch the sky above for a sign  
Tell me will you miss me, when I'm in your history  
Baby, there ain't nothing good about this goodbye

(do do do, do do do, do do do, do do, do)

Snap decisions cause you so much pain,  
Then you come round again and there's nothing left at all,  
Selfish, but I think its for the best  
I'll miss you for the rest of my life

Only now I've let go  
Honey, I just don't know  
Sit right here and watch the sky above for a sign  
Tell me will you miss me, when I'm in your history  
Baby, there ain't nothing good about this goodbye

Only now I've let go  
Honey, I just don't know  
Sit right here and watch the sky above for a sign  
Tell me will you miss me, when I'm in your history  
Baby, there ain't nothing good about this goodbye
