

# Liverpool Rain

Racoon

Stuck in a van  
As far away as I possibly can  
Stuck in a mood  
So far away that it couldn't be good  
My back hurts and it rains  
Screw England, screw the young and insane  
We travel in vain, but the dreams are the same

But look at the heroes in the Liverpool rain  
I'll stick by you forever  
You didn't do it in vain  
You travel the houses, soothing the pain  
Putting a smile on my face once again  
So look at the heroes in the Liverpool rain

Stuck in a van  
And to be honest man, I don't give a damn  
Stuck in this mood  
And to be honest again, it kinda feels good  
Though my back hurts and it rains  
It rains and it rains  
Screw England, we'll be the young and insane  
It's all part of the game, and the dreams are the same,  
are the same  
always the same

So look at the heroes in the Liverpool rain  
I'll stick by you forever  
You didn't do it in vain  
You travel the houses, soothing the pain  
Putting a smile on my face once again  
So look at the heroes in the Liverpool rain

There's a part of me  
There's a part of you  
There's a history  
To follow or to screw

There's a destiny, one for each of you  
An obsessiveness that wants to pull us through  
I got nothing, a little, a lot, I got something to  
share  
And so much I forgot  
Don't know what it means  
Oh but Liverpool, I care

So look at the heroes in the Liverpool rain  
I'll stick by you forever  
You didn't do it in vain  
You travel the houses, soothing the pain  
Putting a smile on our face once again  
So look at the heroes in the Liverpool rain

Look at the heroes in the Liverpool rain  
I'll stick by you forever, you didn't do it in vain  
You travel the houses, soothing the pain  
So look at the heroes in the Liverpool rain
