

# Never Alone

Racoon

Call up your loving friends  
And spit 'em in the face  
Call up a family member  
And you do the same  
You stop pretending  
You believe that it's all true  
'Cause after hanging up  
You always feel ashamed

You and I we don't tell each other lies  
We don't dress up in disguise  
We don't hold back on the whys  
'Cause you and I we don't tell each other lies  
We don't dress up in disguise  
We don't hold back on the whys

Guess we're two of a kind  
On our own  
I won't walk out, I won't leave you  
All on your own  
I won't leave you be  
No you'll never walk alone

I sing about doing without  
But I don't know how  
I'm tangled up inside your net  
I can't get out  
Coughed up my life  
I changed it all by loving you  
Don't ask me why, don't ask me how  
Don't get me mushy now

Because you and I we don't tell each other lies  
We don't dress up in disguise  
We don't hold back on the whys  
'Cause you and I we don't tell each other lies  
We don't dress up in disguise  
We don't hold back on the whys

Guess we're two of a kind  
On our own  
I won't walk out, I won't leave you  
All on your own  
I won't leave you be  
Don't you know  
You're never alone  
Babe I know that we're two of a kind  
All on our own  
So I won't leave you be  
No you'll never walk alone
