All the side effects
were never mentioned to me
I am innocent of uncontrolled abuse
No one ever told me cigarettes could kill me
now I'm used to them

I never saw the writings and the warnings on the packages and posters of my role-up smokes
Tell me that's a hoax

The writings and the warnings on the packages and posters of my role-up smokes Tell me that's a hoax

Got the freakin' idea
I could be like James Dean
15 years old with my foot against the wall
Getting smoke into my eyes
not that I'd show you
being cool and man

I never saw the writings and the warnings on the packages and posters of my role-up smokes Tell me that's a hoax

The pores of plague that tease the cow the cross-eyed steak I'm eating now can overload and in time explode

Pretty done for, heaven knows
the city's like a snake
All wrapped up and tangled in
reality's a fake
The flashy coloured neon signs
are screaming 'Ain't it great!
Come dance with us, take your chance with us

We're left for dead without beliefs we're dead We're scared, but won't admit, to all of this, I bet Welre scared, but won't admit, to all of this I bet so we cease to care instead

Now I'm stuck between the alcohol and wisdom now I'm stuck between a smoke and city air Almost used to all the crappy things we feed on almost belly round and unaware

Pretty done for, heaven knows the city's like a snake All wrapped up and tangled in reality's a fake The flashy coloured neon signs are screaming 'Ain't it great!
Come dance with us, take your chance with us

We're left for dead without beliefs we're dead We're scared, but won't admit, to all of this, I bet WeOre scared, but wonOt admit, to all of this I bet

We re left for dead (side effects) without beliefs we re dead (side effects)
We're scared, but won't admit, to all of this, I bet
We re scared, but won admit, to all of this I bet
so we cease to care instead

All the side effects were never mentioned to me so I am innocent
