

# Took A Hit

Racoon

One party to call  
Two people  
One falls  
No memory, at all  
It's just the way it is

Some yelling  
Some talk  
Some quiet  
Some small  
They nibble on, well, anyone  
No can do for you, doll

Took a hit, a good hit  
Like a car into the wall  
What a hit, a real hit  
When I thought I'd seen it all  
Took a hit, a good hit  
Let dealer make the call  
Oh man, I thought I'd seen it all

You throw out the recipe  
Forget about you and me  
You throw out the recipe  
It's not about you or me  
You throw out the recipe  
Forget about you and me  
You throw out the recipe  
Because the good life, the good love  
The good bits are for free

Some ladies out there  
And nobody that seems to care  
No beauty queens, out there  
It's just a waiting list  
Thick stare straight through the room  
We all give away the goods too soon  
And we're waiting for something to say  
Instead of listening

Took a hit, a good hit  
Like a car into the wall, oh man I thought I'd seen it all

You throw out the recipe  
Forget about you and me  
You throw out the recipe  
It's not about you or me  
You throw out the recipe  
Forget about you and me  
You throw out the recipe  
Because the good life, the good love  
The good bits are for free

Oh, that's what all the love should be

Took a hit, a good hit  
Like a car into the wall, oh man

I thought I'd seen it all

Throw out the recipe  
Forget about you and me  
Throw out the recipe  
It's not about you or me  
You throw out the recipe  
Forget about you and me  
You throw out the recipe  
Because the good love, the good life  
The good bits are the recipe

Forget about you and me Throw out the recipe  
It's not about you or me  
You throw out the recipe  
Forget about you and me  
You throw out the recipe  
Because the good love, the good life  
The good bits are for free
