

All Is Well (It's Only Blood)

Radical Face

All is well now
Pay no mind
All is well now
I'm just fine
I'm just fine

It's only blood; I have plenty left
It's only blood; I just need to rest

I said I'd fix this
That I'd set things straight
You begged me not to
But I couldn't stay
Couldn't wait

They cut me up, but I did them worse
And I'll be fine, I just need to rest

All is well now
All is well now
All is well now
All is well now
