

I Miss The Hell Out Of You

Radical Something

I said, "You're pretty"
We went home and then you kissed me
You tried to tell me that you won't miss me
But I don't care if you do
I miss the hell out of you

I find that taking my time means we got a whole lot left to waste and
And I know to keep it all right we can't be in separate places
So my mind it runs right back to a memory to pass the days with
So if you don't, or if you want, well I still will

[Chorus]

And you know that we could grow old doing all the things that we talked about
And you show, you show me that love I'd be lost without it
I must go, it's a low blow, this time it's really gonna knock me out
But if you don't, or if you want, I still will
