

Letter To Our Friends

Radical Something

This wood that I carry helps me seize the day
This strap on my shoulder helps support the blade
I'll never strip the only lock that keeps me safe
But you can't take away this feeling, from this place

I hope you want to be the same as me
It's all in this letter
It's all in this letter
I hope you want to be the same as me
It's all in this letter
It's all in this letter

Sometimes I like when my life gets thrown into the grey
It helps me paint the disaster that picks up on the way
See I don't know I don't what caused the grain in this flame
But you can't take away this feeling, feeling from this place

I hope you want to be the same as me
It's all in this letter
It's all in this letter
I hope you want to be the same as me
It's all in this letter
It's all in this letter

I hope you want to be the same as me
It's all in this letter
It's all in this letter
I hope you want to be the same as me
It's all in this letter
It's all in this letter
