

# Spraypaint

## Radical Something

Welcome to my colorful oblivion,  
Where all the people in the car that I'm sittin in  
Are cruising just to cruise and laughing just to laugh  
And smiling just to show the whole world that  
It's our chance  
When the sun shines up and you make your mind up  
There's only one place that you might wind up  
Stumble over happiness and just find love  
Born and raised, blessed and made  
Learn to create, teach and mentor  
Never delay, do whatever it takes  
So we can meditate a clever escape and adventure now

Our love's like spraypaint on the wall  
Tagging up the sky and it won't come off  
Yeah, I said it won't come off  
And if they wanna talk let 'em talk man it's all love

I don't give a damn what you think about me  
Cuz the thing about me is I don't really think about it  
I know we all got our problems and it's hard to look away  
But its all love, it's all love today, it's all love today

I know, I know, I know, I know that nobody's perfect  
But it's all worth it if you're gunna take the time to get to know me  
And maybe we could sit in the shade, sweet lemonade  
Play twenty questions while you're leanin' on me  
You're the only one that knows if you're doing it right  
If you buy into the critics it'll ruin your life so were like  
And I don't care if you're totally straight  
I don't care if you're totally gay  
Whoever you are, whatever you are  
However clever, sad, crazy, don't forget who you are  
C'mon cuz

Our love's like spraypaint on the wall  
Tagging up the sky and it wont come off  
If you're running from mistakes in your past now  
You should know were gunna have your back now  
Cuz it's all love

[Chorus]

People think they know me but why they trying to size me up?  
Ain't nobody own me, see you should do whatever you want
