

Start Livin'

Radical Something

It's popping off like a champagne bottle
So put your hands up
Your body's movin' so you know you got to
Put your hands up
Cuz its goin' down, cuz its goin' down
Put your hands up
Cuz its goin' down, cuz its goin' down

Yo
We're in the backyard again
Livin' a lush life with like all my friends
And so I two step shuffle with the help
Of boogie down music and it doesn't matter dancing by myself
Cuz the drinks all cold, the girls all rolled
And we got a few fans at our shows, they sing along
Cmon, you could never call it wrong
Thats why we put our hearts in the song
I see some women looking fly in the distance
They ask me why I'm grinning, and I give 'em my opinion
Listen, cuz life's all about what you do, not what you didn't
So go outside and start livin'!

It's popping off like a champagne bottle
So put your hands up
Your body's movin' so you know you got to
Put your hands up
Cuz its goin' down, cuz its goin' down
Put your hands up
Cuz its goin' down, cuz its goin' down

Here's the scenario, Sublime's on the stereo
Always there to let me know, that's where the lovin' is
I gotta deck full of hunnies and a sky full of nothing but some sweet blue n
othingness
Gimme a look while we're all on the grass
With a big tall glass that just might make me fall on my ass
Second wind you can follow me blindly, come find me
Cuz I be, where the sunshine be
Where the sunshine be
On a mission spreading RAD LOVE visions
So listen or you're really gonna miss it
In life its what you do, not what you didn't
So go outside and start livin'!

It's popping off like a champagne bottle
So put your hands up
Your body's movin' so you know you got to
Put your hands up
Cuz its goin' down, cuz its goin' down
Put your hands up
Cuz its goin' down, cuz its goin' down

Dance, dance, sugar baby show me your moves
I knew that you could shake it right when I saw you
Spinnin' round, back and forth, grooving out
So put your hands up, put your hands up, cuz it's going down

It's popping off like a champagne bottle
So put your hands up
Your body's movin' so you know you got to
Put your hands up
Cuz its goin' down, cuz its goin' down
Put your hands up
Cuz its goin' down, cuz its goin' down
