

Sun Down

Radical Something

We gotta stay together 'til the sun comes down
We gotta stay together 'til the sun comes down
And we don't know where we're going from here,
But we gotta stay together 'til the sun comes down

Yo we strive for togetherness
Cuz what forever is
Is living in the moment and forgetting what the ending is
The friends we inherit, the merits
Why we gotta keep em close to us, and make sure that we cherish
And oh
Kick your feet up and believe us
Bring along the honest leave behind the ones that cheat us
Stop
Really stop and take a second
Take a look around and tell me you don't see perfection
Take a look around and tell me you don't feel connections
The dudes we grew up with and the women that we've slept with
Not knowing where were going?
I guess its poetry
And thats exactly where were s'posed to be

We gotta stay together 'til the sun comes down
We gotta stay together 'til the sun comes down
And we don't know where we're going from here,
But we gotta stay together 'til the sun comes down

Now we're traveling
Into the lost art of settling down
Where we can hang around for a while
And catch a few smiles and bring em back down
Just to show those non believers what we found
And take a piece of nature, now thats profound
Or we could kick a few bucks for some red to lounge
With a bottle, and a blanket under Half Tree
Happy in our circle
Until the the sky turns purple Happy in our circle
Until the the sky turns purple

We gotta stay together 'til the sun comes down
We gotta stay together 'til the sun comes down
And we don't know where we're going from here,
But we gotta stay together 'til the sun comes down
