I'ma let you
Do what you do
Cinnamon I'm caught up in your voodoo
This is your show
Movin' like the breeze blows
Sugar sugar lemme watch ya do it solo

White dress sailing on the sand
Come real close and take my hand
And I will go where you go
Flow where you flow
And we can drift away

Ooooh
I love your rush, exotic touch
Ooooh
Got me burnin' up
Tropical

Girl the sun is under your skin
You move like a wave in the wind
I'm swimmin' in
Got me burnin' up
Tropical

Girl the sun is under your skin
Your energy's pullin' me in
I'm feelin' it
Got me burnin' up
Tropical

Palm trees, palm trees in the soft breeze
Sway so softly till life gets rocky
And these hurricane girls turn into a tsunami
When I dive head first kamikaze

And she said she said
Gimme the gimme the right stuff
She said she said
Gimme the right stuff right now
I don't got time
I don't got patience
Or electric vibrations
I'm tired of waitin'
So you make me go

Ooooh
I love your rush, exotic touch
Ooooh
Got me burnin' up
Tropical

Girl the sun is under your skin
You move like a wave in the wind
I'm swimmin' in
Got me burnin' up
Tropical

Girl the sun is under your skin
Your energy's pullin' me in
I'm feelin' it
Got me burnin' up
Tropical
