

# Down Is the New Up

Radiohead

Get yourself together  
Let the light pour in  
Pour yourself a hot bath, pour yourself a drink  
Nothing's gonna happen without a warning  
Down is the new up  
What is up, buttercup  
Down is the new up, is the new up

Your services are not required  
Your future's bleak, you're so last week

Ladies and gentlemen, without a safety net  
I shall now perform a 180 flip-flop  
I shall now amputate, I shall now contort  
Because down is the new up  
What if I just flip-flopped?  
Down is the new up  
Down is the new up  
Down is the new up, is the new up

You're on Candid Camera  
The chink in your armor  
Topsy turvy town, topsy turvy town  
Shake your pockets out  
Pass it on, pass it down  
Topsy turvy town, topsy turvy town
