

Lewis (Mistreated)

Radiohead

Bummed out again by your only business friend
The smell of fear is thicker than you think
Don't do it, don't jump

Changed shape to fit, in the end you just feel sick
A million love songs under anaesthetic
Hey don't do it, don't jump

Lewis, save yourself the pain, you'll never get there
Lewis, save yourself the pain, it never really mattered

We never noticed, we never understood
He just get crushed to fit, he never even smelt out the best
It's the best, it's the best day of your life

Lewis, save yourself the pain, you'll never get there
Lewis, save yourself the pain, it never really matters

No, I swear, I swear, I swear
Oh, mistreated, a low corporate
Mistreated, a low corporate

I don't wanna to talk about it
I don't wanna to talk about it
I don't wanna to talk about Lewis, Lewis, Lewis
I don't wanna to talk about Lewis, Lewis, Lewis
